

OIL ADDITIVES

STOP LEAK 500ML

Packaging 12 X 500ml

- Conditions and rejuvenates gaskets
- Improves oil viscosity
- Suitable for Petrol and Diesel engines, with regular or synthetic oils

STOP SMOKE 500ML

Packaging 12 X 500ml

- Reduces exhaust smoke and oil consumption
- Increases oil viscosity
- Seals gaps between worn engine part
- Reduces engine noise
- Suitable for Petrol and Diesel engines, with regular or synthetic oils

TRUCK & TRACTOR (ENGINE FLUSH) 500 ML

Packaging 6 X 500ml

- Scientifically formulated for diesel cars, trucks, tractors and bakkies
- Removes harmful deposits and sludge
- Improves performance

CHARGE! FOR OIL 375ML

Packaging 12 X 375ml

- Reduces oil consumption in engines with signs of wear
- Minimises exhaust smoke by providing better piston ring sealing
- Improves oil pressure to better protect moving parts
- Restores compression

SUPER FRICTION PROOFING 325ML

Packaging 12 X 325ml

- Protects and enhances modern engines. Reduces friction and wear.
- Conditions metal surfaces. Retards oil ageing.
- Prevents oxidation and premature thickening of the oil.
- Stops formation of sludge and deposits.

OIL SYSTEM FLUSH 375ML

Packaging 12 X 375ml

- Complete oil system flushing
- Anti-wear additives protect moving parts
- Water emulsifier removes harmful moisture from the system
- Compatible in petrol or diesel engines

STOP SMOKE OIL SUPPLEMENT 500ML

Packaging 12 X 375ml

- Reduces exhaust smoke
- Reduces oil consumption in engines with considerable wear
- Improves compression and prevents blow-by by sealing the piston rings
- Restores oil pressure

SUPER CHARGE FOR ALL MOTOROILS 250ML

Packaging 24 X 250ml

- Improves the viscosity index of lubricating oils.
- Strengthens the oil film under high temperatures, high shear conditions.
- Restores compression and oil pressure.
- Reduces excessive oil consumption and exhaust smoke due to this oil consumption.

ENGINE FLUSH 375ML

Packaging 6 X 375ml

- Cleans internally, removing carbon and gum deposits without dismantling the engine.
- Restores compression and performance. Caution: In worn engines it will remove deposits, leading to increased clearances which could give additional oil consumption.
